A World in Motion "Motion Master Teacher Training Program"

on

31st August & 1st September, 2017

A Master Teacher Training Program of "A World in Motion" was organized by SAEINDIA and HJD Institute of Technical education and Research. The workshop was conducted on 31st August and 1st September, 2017. AWIM: A World in Motion curriculum joins together school teacher, students and Industry volunteers in an exploration of physical science while addressing essential mathematic and scientific concepts & skills of school students.

SAEINDIA volunteers presented to HJD students balloon powered vehicles also called Jet Toys understand the force and thrust to drive an automobile. Working in design teams, students built and tested model Jet Toys using different nozzles. They analysed and presented data to understand the effect of nozzle size on the performance of the toys.

Total 15 students, 15 volunteers and 5 school teachers attended the workshop. Mrs. Ranjana Rathor (Principal of HJD School) gave welcome and introductory speech. The session was conducted by Hardik Saraswat and Ritwik (Coordinator of SAE). Some useful tips on personality development were also shared. The Program was conducted under the guidance of Dr. Kalpana Maheshwari (I/C Principal of HJD ITER) and Mrs. Rasila Hirani (Coordinator of HJD Institute). At the end of session, Ms. Stuti Vora presented a vote of thanks and concluded the event.
