

Events@HJD: Industrial Visit to Synergy Transformer Pvt. Ltd. –Gondal (Rajkot)

Date: 8th Sept. 2017

Class : BE-7thElectrical (Degree)

About The Visit: An Industrial visit for Final year degree students of Electrical Engineering was organized at Synergy Transformers Pvt. Ltd. at Gondal (Rajkot) in connection with the subjects DC-AC Machines and Industrial Instrumentation.

Details of Program:

55 students of Final year degree Electrical Engineering department of the Institute with faculty member Mr. Kelvin Manvar, Mr. Parashar Thaker and Ms.MeghaGor visited Synergy Transformers Pvt. Ltd. at Gondal (Rajkot). This visit was planned to enhance practical knowledge in the field of DC-AC Machines and Industrial Instrumentation.

During visit students were able to see and acquire practical knowledge about equipment like Transformer and its types. Mostly industrial transformers are manufacturing in that company. Students can see the process of coremaking, making of windings in which HV and LV, Protection of transformer, testing of transformer, checking every part of transformer and lastly whole transformer is ready. Transformer is one of the most important type of machines which is used in industry and power system in the field electrical engineering, so students gain the brief knowledge of it.
